- CLIENT The Royal Borough of Windsor and Maidenhead
- CONTRACTOR Rollalong Ltd

# ROLLALONG ENGINEERED QUALITY BUILDINGS

[www.rollalong.co.uk](http://www.rollalong.co.uk)

The Royal Borough of Windsor & Maidenhead (RBWM) engaged Rollalong to design and build a 4 bay single storey Sure Start Children's Centre at Larchfield Primary School. Modular was the ideal choice due to the project only allowing 6 weeks on site to complete the build, and to minimise disruption being on the school site.

Rollalong provided step by step advice on the design for the client, in order to create a large group activity area, kitchenette, office, and consultation room and toilet facilities, including an accessible and baby change facility. The building benefits from being brick clad in order to blend in with its surroundings.

The Rollalong project team worked closely with the centre manager and the RBWM to ensure that the tight project timescales were achieved.

This high quality building is fully compliant with DDA code of practice and UK Building Regulations.

## THE ROLLALONG WAY

### BESPOKE DESIGN

Our in-house design team fully understand your requirements from usage, layout, external appearance, size and budget, and design your building accordingly.

### PROJECT DELIVERY

Rollalong offers a range of services from the standard modular building installation, to the full turnkey Design & Build package.

### EXCELLENT CUSTOMER SERVICE

Our expert project management team will guide and support you through the whole build process striving to help advise and exceed your expectations.

**"I DIDN'T THINK THAT IT WOULD BE POSSIBLE FOR ROLLALONG TO HAVE THE PROJECT FINISHED IN SUCH A SHORT PERIOD AND TO SUCH A HIGH STANDARD, BUT THEY GAVE US A FANTASTIC COMMITMENT AND DELIVERED OUR BEAUTIFUL BUILDING ON TIME AND ON BUDGET".**

CAROLINE HERRINGTON,  
LARCHFIELD CHILDREN'S CENTRE MANAGER.

### ROLLALONG BUILDING SYSTEM

The Xpand product is a modern timber frame construction delivering fast, economic and flexible structures. These buildings fully comply with UK Building Regulations to guarantee structural longevity, high performance and low maintenance. Externally they can be clad in a variety of finishes to complement almost any site and only require pad foundations.
